CLINICAL CYTOMETRY[a]

Editor
MICHAEL ANDREEFF

CONTENTS

I. Instrumentation

Cytometry in the Clinical Laboratory: Quo Vadis? *By* BRIAN H. MAYALL 1

The Little Laser That Could: Applications of Low Power Lasers in Clinical Flow Cytometry. *By* HOWARD M. SHAPIRO 18

Flow Cytometric Instrumentation for Scientific and Clinical Use. *By* VOLKER KACHEL 28

II. Cell Cycle Analysis and Drugs

Cell and Nuclear Growth During G_1: Kinetic and Clinical Implications. *By* ZBIGNIEW DARZYNKIEWICZ, FRANK TRAGANOS, and LISA STAIANO-COICO 45

Flow Cytometric Analysis of Cell Kinetic Responses Using Measurements of Correlated DNA and Nuclear Protein. *By* A. POLLACK, H. MOULIS, D. L. PRUDHOMME, N. L. BLOCK, and G. L. IRVIN III 55

The Assessment of the Chemotherapeutic Effects of Vinca Alkaloids by Immunofluorescence and Flow Cytometry. *By* H. G. GRATZNER, G. FOUNTZILAS, J. H. STEIN, and A. A. YUNIS ... 67

Flow Cytometric Monitoring of Anthracycline Transport in Tumor Cells. *By* AWTAR KRISHAN 80

III. Hematology—Immunology

Assessment of Leukocyte Alkaline Phosphatase By Image Analysis. *By* LEONARD S. KAPLOW, JILL Y. CROUCH, JERRY ANN CROUCH, HANS KUNZ, and GERARDO L. GARCIA 85

[a]The papers in this volume were presented at a conference entitled Clinical Cytometry, which was held by the Engineering Foundation and the Society for Analytical Cytology on December 7-12, 1983 at The Cloister, Sea Island, Georgia.

Controls for Flow Cytometers in Hematology and Cellular Immunology. *By* MICHAEL C. BROWN, ROBERT A. HOFFMAN, and STEFAN J. KIRCHANSKI 93

Extended Leukocyte Parameters for Hematology Analyzers. *By* DEBORAH PEEBLES, STEFAN KIRCHANSKI, MICHAEL BROWN, and ROBERT HOFFMAN 104

Methodological Considerations for Implementation of Lymphocyte Subset Analysis in a Clinical Reference Laboratory. *By* K. A. MUIRHEAD, P. K. WALLACE, T. C. SCHMITT, R. L. FRESCATORE, J. A. FRANCO, and P. K. HORAN 113

A New Immune Monitoring System for the Determination of Lymphoid Cell Subsets. *By* ALEX M. SAUNDERS and CHIN-HAI CHING 128

Characteristics of Monoclonal Antibody Measurements in Human Peripheral Blood. *By* JERRY T. THORNTHWAITE, DANIEL SECKINGER, PHYLLIS ROSENTHAL, and ANTONIO VAZQUEZ ... 144

IV. Lymphomas

Analysis of Neoplastic Leukocyte Surface Antigens in Unfractionated Blood. *By* RAUL C. BRAYLAN, NEAL A. BENSON, BARBARA A. BENSON, and VIRGINIA A. NOURSE 160

The Use of Flow Cytometry in the Diagnosis and Biological Characterization of the Non-Hodgkin's Lymphomas. *By* STANLEY E. SHACKNEY 171

Comparison of Morphologic Features and Mitotic Rate to Cytometrically Determined DNA Content of Poorly Differentiated Lymphocytic Lymphomas. *By* MARGARITA PALUTKE, BERTRAM SCHNITZER, DEBRA DRESNER, PAMELA TABACZKA, VORAVIT RATANATHARATHORN, LEOPOLDO EISENBERG, and DAVID TENENBAUM 178

Lymphocyte Subsets in Lymph Node Hyperplasias and B Cell Neoplasms as Determined by Fluoresceinated Antibodies and Flow Cytometry. *By* SALLY E. SELF, NICHOLAS M. BURDASH, ANNE D. PONZIO, and MARIANO F. LAVIA 195

Surface Immunoglobulin Light Chain Expression in Pre-B Cell Leukemias. *By* BENJAMIN KOZINER, JANET STAVNEZER, AYAD AL-KATIB, DAVID GEBHARD, ABRAHAM MITTLEMAN, MICHAEL ANDREEFF, and BAYARD D. CLARKSON 211

V. Leukemias

Frequency and Clinical Significance of DNA Aneuploidy in Acute Leukemia. *By* W. HIDDEMAN, B. WÖRMANN, J. RITTER, E. THIEL, W. GÖHDE, B. LAHME, G. HENZE, G. SCHELLONG, H. RIEHM, and TH. BÜCHNER 227

Detection of Central Nervous System Relapse in Acute Leukemia by Multiparameter Flow Cytometry of DNA, RNA, and CALLA. *By* ARLENE REDNER, MYRON R. MELAMED, and MICHAEL ANDREEFF 241

American Adult T Cell Leukemia/Lymphoma: A Flow Cytometric and Morphological Study. *By* BERTRAM SCHNITZER, LARRY E. KAHN, EDMUND J. LOVETT, III, and JERRY L. HUDSON ... 256

Detection of Minimal Residual Disease in Acute Leukemia by Flow Cytometry. *By* J. W. M. VISSER, A. C. M. MARTENS, and A. HAGENBEEK..... 268

VI. Solid Tumor

Prognostic Applications of DNA Flow Cytometry for Human Solid Tumors. *By* O. S. FRANKFURT, S. G. ARBUCK, J. L. CHIN, W. R. GRECO, Z. P. PAVELIC, H. K. SLOCUM, A. MITTELMAN, S. M. PIVER, E. J. PONTES, and Y. M. RUSTUM..... 276

Potential Prognostic Significance of Cytometrically Determined DNA Abnormality in GI Tract Human Tumors. *By* L. TEODORI, D. TIRINDELLI-DANESI, E. CORDELLI, R. UCCELLI, R. DE VITA, M. SPANO, F. MAURO, A. SCHILLACI, A. MORALDI, L. CAPURSO, and S. STIPA..... 291

Flow Cytometric Identification of Human Bladder Cells Using a Cytokeratin Monoclonal Antibody. *By* JEFFRY L. HUFFMAN, PILAR GARIN-CHESA, HELEN GAY, WILLET F. WHITMORE, JR., and MYRON R. MELAMED..... 302

Determination of Cell Cycle DNA and 5′-Nucleotide Phosphodiesterase in Endometrial Cancer. *By* K. C. TSOU, D. H. HONG, M. VARELLO, J. E. WHEELER, R. GIUMTOLI, C. MANGAN, and J. MIKUTA..... 316

VII. Bacteria, Chromosomes, and Sperm

Flow Cytometry of Bacteria: Cell Cycle Kinetics and Effects of Antibiotics. *By* HARALD B. STEEN, KIRSTEN SKARSTAD, and ERIK BOYE 329

Flow Karyology of Neoplastic Human Fibroblasts. *By* M. BARTHOLDI, G. TRAVIS, L. S. CRAM, P. PORRECA, and J. LEAVITT..... 339

Male Germ Cell Analysis by Flow Cytometry: Effects of Cancer, Chemotherapy, and Other Factors on Testicular Function and Sperm Chromatin Structure. *By* D. P. EVENSON 350

VIII. Late Papers

Prognostic Value of DNA/RNA Flow Cytometry of B-Cell Non-Hodgkin's Lymphoma: Development of Laboratory Model and Correlation with Four Taxonomic Systems. *By* MICHAEL ANDREEFF, HERBERT HANSEN, CONNIE CIRRINCIONE, DANIEL FILIPPA, and HOWARD THALER 368

Prognostic Value of DNA/RNA Flow Cytometry in Myeloblastic and Lymphoblastic Leukemia in Adults: RNA Content and S-Phase Predict Remission Duration and Survival in Multivariate Analysis. *By* MICHAEL ANDREEFF, GORDON ASSING, and CONNIE CIRRINCIONE 387
